

PROLON: INSTALLATION, START-UP & TROUBLESHOOTING, IN-PERSON IN TORONTO!

1 DAY IN-PERSON – APRIL AND OCTOBER 2025
FREE TRAINING

Registration: formation@prokontrol.com

DATES:

- April 16, 2025
- October 16, 2025
- Arrival at 8:30 AM and departure at 4:30 PM (lunch included)

LOCATION: ProKontrol Toronto (106-3780, 14th Avenue, Markham, ON, L3R 9Y5)

WHO IS THIS TRAINING FOR? Installers and technicians who use the ProLon regulation system; project managers who want to deepen their knowledge of the system. A compatible computer with Windows is **REQUIRED**.

Content:

- This comprehensive training covers all aspects of a ProLon regulation project, from design to troubleshooting, including wiring, equipment connections, and start-up.
- Control theory, communication principles, and navigation in the Focus software will also be addressed.
- The trainer can install the Focus software on your equipment, and practical labs are also part of the program!

Hurry, spots are limited!
